BILL EVANS ARRESTED BY A TRAFFIC OFFICER

Because of his ignorance of Reno's traffic laws, W. B. Evans of Tonopah was discharged by Judge George Bryson in the municipal court yesterday morning. Evans was arrested Wednesday night for turning his automobile on Commercial Row in front of the Overland hotel.—Reno Journal.

(By Associated Press.) WASHINGTON, July 21.—Women resumed the white house picketing unmolested as a protest against the president's action in pardoning their members from the workhouse.

DROPS DEAD AFTER LEAVING HOSPITAL

John J. O'Byrne, employed by the Nevada Gas company as meter expert, dropped dead on Central street this morning while on his way to work. O'Byrne came here only ten days ago from Honolulu where he had been working for the same company for ten years. From the very outset the altitude appeared to affect him and his heart action became so impaired that he applied for admission to the county hospital where he was treated successfully. Feeling much better and believing he had overcome the handicap of changing suddenly from sea level, O'Byrne decided to report for work today. Taking his suitcase he started down town and

had proceeded only as far as McCullough street when he was observed to stagger and fall. Some of the neighbors who witnessed the act ran to his assistance and bathed him with water in the hope of reviving but their kindly efforts were of no avail. A doctor was summoned and it was found that the man was dead. An inquest will be held this afternoon at 2 o'clock.

Deceased lived at 1411 West 15th street, Oakland, according to papers found in his room and is supposed to have been divorced as clippings were found in his pockets referring to alimony payments. He was about 48 years of age and had been in the county hospital for two days.

MANAGER IS WANTED UPON NEW CHARGES

Sheriff Ferrel yesterday issued bulletins which will be distributed broadcast, offering a reward of \$500 for the arrest and conviction of H. E. Abbott, manager of the Golden Rule Mercantile company, who is wanted on two charges of embezzlement and on a charge of bigamy in Newark, N. J., says the Reno Journal.

In a complaint sworn out Monday it was alleged that H. E. Abbott took \$1070 of the company's money, it was found Wednesday that the sum of \$425, which was marked to the company's account in the bank books had not been deposited and yesterday it was found that aside from a woman who accompanied him and claimed to be his wife, Abbott has a wife in the east.

Abbott is described as being 46 years old, 5 feet 8 or 9 inches tall, weighing 135 pounds and having grey eyes, mixed grey hair, a smooth shaven face, a shallow complexion, dark clothes, straw, sailor hat and being a dry goods salesman.

BIG YEAR FOR INSURANCE COMPANIES

The year 1916 was the greatest insurance year, according to figures compiled by the Insurance Press of New York. During the year \$758,500,000 was distributed in death claims and dividends.

In Nevada there were three death claims of \$10,000 or over paid. They were for Dr. O. P. Johnstone of Reno, \$10,072; H. Benson of Reno, \$10,090, and J. Chandler of Tonopah, \$16,500.

The total paid in the state was over \$200,000 divided as follows: Reno, \$106,250; Tonopah, \$44,500; Carson City, \$18,500; Virginia City, \$13,750; Goldfield, \$13,000, and Elko, \$12,750.

BRYANS DREAM FOR SILVER MAY COME

METAL AT \$1 IN 60 DAYS AND EVENTUALLY \$1.29 FORECAST OF J. V. POWERS.

Silver at 16 to 1, an actuality until 1873 and the dream of William Jennings Bryan in 1896, gives promise of becoming rehabilitated by its own pressure if not by law to the prodigious advantage of Nevada.

John V. Powers, attorney engaged in mining practice in San Francisco, last night predicted a very great increase in the price of silver and told the Reno Journal that it was not improbable that the old slogan of \$1.29 an ounce for silver will be reached. Mr. Powers has charge of the development of the Shamrock mine in Sierra county, California, sideling the famous Sierra Butte's mine, one of the oldest operating gold mines in the west. He has conferred with mining men in various parts of the country and points out that outside of Nevada the possibility of silver is more fully recognized than by the average Nevadan.

NEVADA TO GAIN
Nevada will be the principal gainer by high silver prices, he pointed out. Here are some of the benefits that in his prediction will accrue to the people of Nevada:

Dollar silver within ninety days. Reopening of old mines and developing of new claims.

Remonetization of silver, by necessity if not by law. A gain equal to the discovery and exploitation of another Comstock.

A doubling of population within ten years.

Nevada the principal silver producing district of the world. A heavy demand for silver as specie in European countries to cover debts and place the nations on a specie basis.

HUMBOLDT RIVER IS SAID TO BE CROOKED IN WORLD

The Humboldt river, flowing southwesterly through the central portion of Nevada, near the line of the Southern Pacific railroad, in point of size and length, is probably the crookedest river in the world.

At one place adjacent to the railroad, according to Fred Riecker, valuation engineer, between two points two and one-half miles apart, its length is eight miles and by actual count its course is alternatively north twenty-five times and west forty-one times; also it may be stated that at thirty-three different points it is within 150 feet or less of itself, the current flowing in opposite directions by these points.

QUINN RIVER LANDS ARE BEING TIED UP

WINNEMUCCA, July 20.—Uncle Sam has sent a man to look over the government lands in the Quinn River valley which have been filed upon by settlers but for which patents have not been issued. All the streams of this section from which water for irrigation is taken are tied up in the big water suit of the Pacific Live Stock company against all the ranchers of the valley, and no patents on pending homesteads and desert land proofs can be issued for the reason that the land locator is required to show that he has a perfect water right, and this cannot be done while the suit is pending.

Martin Legaraza, a rich sheep man, paid \$12000 for a ranch in that valley some years ago. He thought he was buying the land, but long afterward he learned that he only bought the improvements. As the land had not at that time been surveyed, he had a squatter's right, and when the survey was finally made, a few years ago, he availed himself of the right to file first on the land.

AMUSEMENTS

BUTLER THEATER.

Double program today, two features, a five act Metro wonderplay and a two-reel Animal comedy, the best animal picture ever shown. With this feature program come two brilliant stars, Harold Lockwood and May Allison, who represent the best type of young American screen stars.

Indian rites and ceremonies prevalent among the Iroquois and the Mohicans in the days preceding and during the revolutionary war are faithfully depicted in "The Hidden Children," of the famous story of the same name. The great Feast of Drams with the White Sorceress of the Senecas as dream-interpret, the Dance of the Eight Thunders, with all their grace and savage beauty, are shown in every detail in this amazing production, which reproduces the early history of the nation. The beautiful ceremony of the White Bridal, uniting by sacred vows, in the depths of the forest is another impressive scene. With this feature will be seen a two-reel animal comedy, "Wild Animals at Large." See the lions raid a grocery store, eat what they want and then turn it inside out. No matter how young or old this is sure to amuse them.

TONOPAH TRAINED NURSE GIVEN RED CROSS PLACE

Wonderful Soda--

That's what they all say
—and why wouldn't they say it? It certainly is the most wonderful soda we have ever seen, and probably the very best soda that can be produced today. That is the reason. First, purity of ingredients, then careful manipulation, then a sanitary fountain and the cleanest and neatest service. That's what makes it good. That should appeal to you, and induce you to meet and treat at our fountain, now and for the balance of the summer. Any flavor you want, all the old-fashions, and the newest ones.
